

PLEASE TAKE NOTE

FOR YOUR SAFETY & THE SAFETY OF OUR TEAM

- We have installed a Plasma Air- UV light ionization system directly to our HVAC unit to purify indoor air at the source of contamination. This will effectively neutralize all particulates such as bacteria, virus cells, gases, and aerosols.
- We have placed 6 AirDoctor stand-alone air purifiers that features UltraHEPA medical grade filter in the reception area and each treatment suite. The UltraHEPA filter is able to capture 99.99% of the most dangerous ultra-fine particles in the air.
- We have placed a Treedental external dental suction unit which effectively captures droplets and aerosols produced during extensive treatments.
- We have integrated Isolite by Zyris and Purevac by Denstply into each treatment suite. In conjunction with our dental suction, we are able to eliminate airborne dental aerosols by over 90%.
- We have installed Plexiglass barriers in the reception area to prevent patient and employees from spreading germs.
- In conjunction with our current personal protective equipment (PPE), our clinical team will also be equipped with disposable body gowns, face shields, N95 masks, and Head covers.
- Patients will rinse with 1.5% Hydrogen peroxide prior to any treatment or exam to reduce the salivary load of oral microbes, including potential COVID19.
- Our office will communicate with you beforehand to ask some screening questions, and you'll be asked those same questions again when you are in the office.
- We have hand sanitizer that we will ask you to use when you enter the office. You will also find some in the reception area and other places in the office for you to use as needed.
- Vitals will be taken upon arrival with touchless thermometer.
- You may see that our waiting room will no longer offer magazines, children's toys, and coffee/water station since those items are difficult to clean and disinfect.
- Appointments will be managed to allow social distancing between patients. That might mean that you're offered fewer options for scheduling your appointment.

Together we smile, and thank you for being our patient. We value your trust and loyalty and look forward to welcoming back our patients.
